Project overview

The proposal is for the erection of 82 assisted living apartments comprising 16 no 1-bed apartments and 66 no 2-bed apartments, together with communal spaces comprising lounge /bistro / health and wellness suites, guest accommodation, staff rooms, surface and undercroft parking. Access to the site is from Regiment Gate passing under part of the building.

The main entrance and reception area is accessed from within the central courtyard area and provides views through the building to the landscaped communal gardens beyond.

After a number of discussions with Countryside Zest and the planners, the design developed along a more contemporary solution to tie in with the development well under way at that time opposite the site.
