client	PMP Health Developments Ltd
location	Greenways, Bognor Regis
size	1350m²
value	£1.6m
status	Complete

Project overview

To maximise the potential of vacant land adjacent to their Care Home on this site, MHA entered into a contract with PMP Health Developments Ltd to build a new Medical Centre to meet the expanding needs of the local doctors' surgery.

The new Centre is designed to accommodate 10 GPs and includes therapy rooms offering complementary medical services. A pharmacy is also provided.

The new building is attached to the existing Care Home and has therefore been designed in a manner which is sympathetic in style and complements the form of the existing building, but gives the new Medical Centre its own identity.
